

Interested in helping us develop a new National Certificate in Security [Level 4]?

March 2008

In response to feedback from stakeholders in the security industry, ETITO will begin developing a level 4 security qualification for senior officers and team leaders in May.

To help us with this work, we're looking for industry members and stakeholders with relevant subject matter expertise and experience to join our qualification consultation group.

ETITO consultation groups are selected to include representatives from employers of varying sizes and training providers across regions and relevant sectors

SITAB [the Security Industry Training Advisory Board] will be providing nominations for members of the consultation group and we invite others in the security industry to suggest their own nominations.

If you would like to be a part of this consultation process, please contact:

Kharen Hope

Project Leader [Qualifications]
